Von, this is worth your  
reading in toto, but I  
particularly appreciate your  
comments on para 13.

455:

This is an awfully good course, and one of the reasons is the amount of "on the job" training that the students get in our Offices. Anything that cuts this down is bad, but I don't know of much we can do in the DD/I to help. Our own space is too tight to give you any kind of a beachhead in the Headquarters Building during the period of the course. I will try to help, however, and if before the next running Jim will get in touch with me we may be able to do some scheduling and reserving of conference rooms that will ease the transportation problem.
